Covid with my Kittens

This pandemic has been difficult for many in various different ways. I lost out on so much I had planned this year. However, I found my silver lining in having the opportunity to give all my time and attention to bottle feeding and raising these angels.

Long sleepless nights filled with worries about the state of the world were made easier when I could focus on taking care of these two.

My Free time was spent staying home and taking care of these babies and bonding.

They made their place in my heart and on my desk where much of their time has been spent keeping me company while I attend classes and do my assignments

They quickly learned my routine and wait for me by my work station when they know I have class. Could not have asked for better classmates!
